

2024/2025

KHAMIMAMBA
TRAINING AND RESOURCE CENTRE

ANNUAL REPORT

VISION

To be one of the best provider of ECD training, Mentoring, Coaching and Community Development initiatives and related services in South Africa

Chairperson's Report:: Mr Bila Sydwel

Chairperson's Foreword

A Greek philosopher, Heraditus once said: "the only constant in life is the constant process of change, a reality we must learn to embrace." Indeed, the announcement of new tariff strategy by President Trump on the 2nd April 2025, accurately reflects the truth behind this philosophical idea. These tariffs have sent shockwaves throughout the world and created trade embargo between USA and the world.

To a greater extent, the cancellation of significant aid programs as well as, imposing 31% levy on goods imported from South Africa by USA is tantamount to nullifying the Africa Growth and Opportunity Act (Agoa). This Act gave South Africa and other several African countries, preferential access to the US markets.

Undeniably, the world appears poised for more shakes than gently rattles. Uncertainty is all around us, never more so than today. Recent events such as violence and insecurity in Burkina Faso, South African soldiers killed in eastern DRC, conflict between India and Pakistan, the passing on of Pope Francis, aborted VAT hike in S.A, as well as South Africa hosting G20 summit latter this year serve as an irrefutable proof that change is inevitable.

Apart from global challenges, it is with heavy hearts to officially announce the passing on of one of our dedicated, ambitious, innovative and trusted employees, Ms. Nkhesani Emma Nukeri, who was laid to rest on the 3rd May 2025 at Babanana cemetery in N'wamitwa. May her soul rest in eternal peace.

It is a well-known fact however, that the greatest danger in times of turbulence is not the turbulence, but to act with yesterday's logic. Consequently, Kanimamba Training and Resource centre is very proud to have triumphantly ridden out various episodes of the global tragedies and continued offering premium services to its trusted clientele.

We are therefore, ecstatic to present the 2024/ 25 Annual and Financial Reports to all our stake-holders, communities, donors, grant-makers and beneficiaries for their considerations, information, inputs and suggestions for improvements.

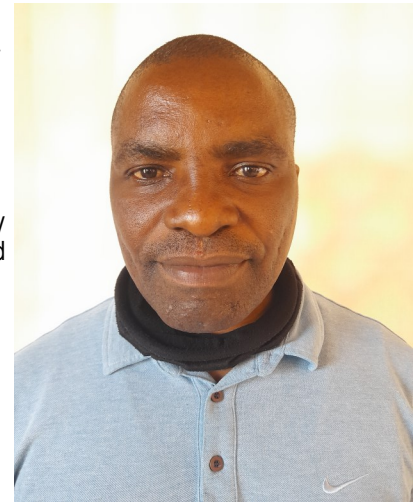

These reports will reflect on the path traversed over the past financial year. During the period in question, we have had our fair share of challenges as a result of our day to day operations. What remains critical, however, is our ability to confront such challenges and improve on weaknesses, in pursuit of our vision, objectives and legislative mandates.

With this in mind, I would like to acknowledge the conscious exertion of power made by our Board of Directors, Management Team, Members of staff, Donors, Grant-makers and communities. Our success depends in full measure, on their resourcefulness, flexibility and engagements over a period of time.

Au revoir!

Baie dankie

Khanimambo.

M&E (CommCare)

ECD Data & Allocation

Identifying and profiling ECD services to develop strategic partnerships and lobby for support from government and stakeholders.

We deploy data collectors to conduct site visits to profile ECD centres and staff. The aim is to create a database to inform needs assessments and ECD centre improvement plans. ECD centres lack sufficient support to deliver quality ECD programmes. But before we can address that, we need accurate, reliable and comprehensive ECD data. Without data there is no knowledge of what needs to change or develop, or even that an ECD centre exists.

Collaboration

Khanimamba believes on the power of teamwork in enhancing the impact. The following are the organisations that KTRC collaborates with:

- Golang-kulani Early Learning Center in Tzaneen
- Thukakgaladi in Mankweni
- Giyani ECD Association
- Malamulele ECD Association
- Ntataise Network
- NECDA
- Impande
- Masifunde Youth Development
- DBE

Staff Development

- 5 staff members were trained and certified as Assessors.
- 3 were trained and certified as Moderators.
- 7 of our trainers were trained as Facilitators.
- 8 of our trainers were trained as data collectors and 3 administrators were trained to clean data and generate reports from the data collected on CommCare data system.
- 7 of our staff members attended the Ntataise Network and NECDA Conferences,

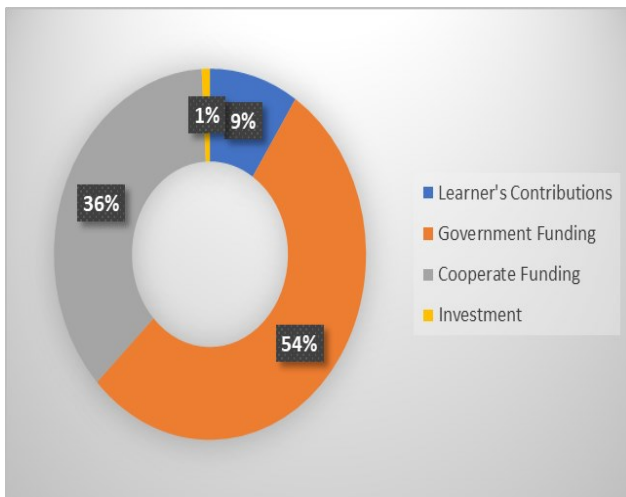

Financial Report

The Board and Management Team of Kanimamba Training and Resource Centre takes this opportunity to thank all our stakeholders (partners, grant makers and beneficiaries) for supporting the organisation's course during 2024/2025 financial year. We are extremely grateful. We also like to thank Kanimamba's workforce for their commitment, dedication and love they are continuously demonstrating and touching the lives of many beneficiaries. Ensuring that the goals of the organisation are achieved.

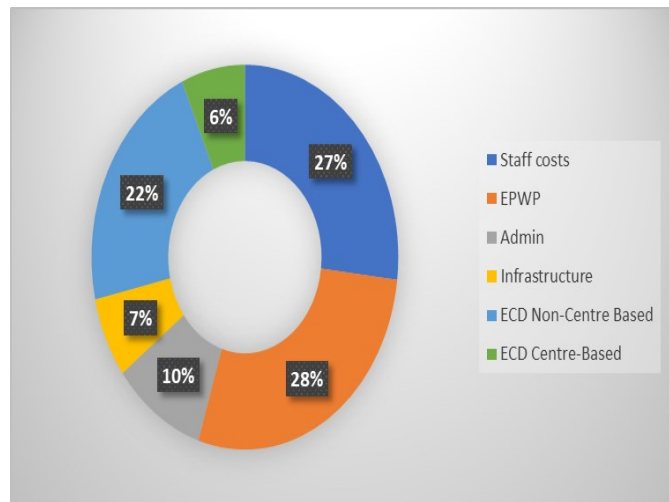

Kanimamba will always be donor depended due to the nature of the work and environment our beneficiaries finds themselves in. They are not able to pay for the services needed and rendered by Kanimamba. Kanimamba Board and Management Team has a great responsibility to ensure that the available scarce resources are spent in a responsible and effective manner. Our legal and donor audits demonstrate that our financial control and records meet the expected industry standards.

We are pleased to present the Financial Report derived from the Organisation's independent Audited Financial Statement for the year 31 March 2025. Prepared by our independent Auditors viz ADK Business Accounting Services.
